## PROFESSIONAL

---

### Sleek Customs

Remote

*Freelance React Developer*

07/2023 – 07/2023

- Created a client's website with ReactJS, emphasizing responsive design and interactive features, using modern web development techniques like component-based architecture and state management.
- Collaborated closely with the client to grasp their requirements and translated them into a visually appealing and user-friendly website.
- Ensured the website's adaptability across various devices, delivering a seamless and engaging user experience.

### VPN Wizard

Remote

*Freelance Web Developer*

03/2023 – 03/2023

- Developed a clean and user-friendly landing page for affiliate VPN products using HTML, CSS, and JavaScript, ensuring a seamless visitor experience.
- Strategically integrated JavaScript pop-up ads to enhance the promotional aspect of the page, contributing to increased click-through rates and conversions.
- Client expressed satisfaction with the final result, appreciating both the aesthetics and functionality of the landing page, which now serves as a successful platform for affiliate product promotion.

---

## Projects

---

### BlockEstate

Solidity / React / hardhat

- BlockEstate is a decentralized application (Dapp) built on the Ethereum blockchain using Solidity and ReactJS. The platform allows users to buy or sell land properties securely and transparently using blockchain technology.
- Github : <https://github.com/shobhitexe/BlockEstate>
- Live website : <https://blockestate.tech/>

### Insta Spider

Typescript

- I developed Insta-Spider, npm library using TypeScript, enabling Instagram Reel scraping without relying on the Instagram API for easy downloads.
- it has simple and intuitive interface, one can seamlessly integrate it into your Node.js projects and start scraping Instagram Reels effortlessly.
- Github : <https://github.com/shobhitexe/insta-spider>
- NPM : <https://www.npmjs.com/package/insta-spider>

# Open Source Contributions

---

## Komiser

### *Contributed to its NextJs Codebase*

- updated the filter tags' style and layout as per the Figma design, also addressing the missing "+" button. Additionally, resolved issues with storing previous filter values and fixed filter visibility in saved views | [PR Link](#)
- added a maxLength of 64 characters to input fields as a solution for missing constraints | [PR Link](#)
- relocated the "Save View" button to the Active Filters bar to align with the Figma design, making design adjustments as needed | [PR Link](#)
- removed the non-compliant top filter button, replacing it with a properly aligned filter button within the ActiveFilters component. | [PR Link](#)
- Aligned filter tags, buttons, and dropdown design with Figma specifications through adjustments in component width, font weight, spacing, and added hover effects | [PR Link](#)

## Twentyhq

### *Contributed to frontend ReactJs Codebase*

- Contributed to project by implementing a RoundedLink component, incorporating a new Chip variant, and enhancing UI components for URL display, aligning with design specifications and receiving approval from project members | [PR Link](#)

## BioDrop

### *Contributed to its NextJs Codebase*

- replacing manual DOM manipulation with the 'useRef' hook for improved code quality and maintainability | [PR Link](#)
- Inconsistent tag casing on the search page causing duplication and confusion, Utilized MongoDB's aggregation framework to convert all tags to lowercase, ensuring uniformity and resolving tag duplication issues on the search page. | [PR Link](#)

# EDUCATION

---

- Bachelor of Technology (B.Tech.) from Mandsaur University (2024)
- Senior Secondary (12th Grade) from St. Thomas Senior Secondary School (2020)
- Secondary School (10th Grade) from St. Thomas Senior Secondary School (2018)

# SKILLS & INTERESTS

---

- Skills :- JavaScript , ReactJs
- Interests/Hobbies : Computer games , Financial markets

# Strengths & Weakness

---

- Strengths :- problem solving , Resourcefulness
- Weakness :- Public Speaking , Perfectionism

# Personal Details

---

- DOB :- 01/07/2002
- Gender :- Male
- Nationality :- Indian
- Marital status :- Unmarried
- Languages Known :- English , Hindi
